Template manager user's guide

Store and Listing template to establish a brand design on eBay platform

1. Extract .zip file downloaded
2. Locate template file under installation/template/
3. Go to template installation on Rockscripts template manager
   http://rockscripts.org/designmanager/store_design/developerzone/install_template
4. Browse template zip file from your computer and click install.

5. Activate Template
6. Open set up images/ folder and see template images for set up.
7. Please read documentation at http://docs.rockscripts.org/ to customize your template as you want.

   Eg 1. Update logo
   http://docs.rockscripts.org/section/ebay-store-design/store-logo-manager/
   Eg 2. Adding Featured Items widget
   http://docs.rockscripts.org/section/featured-listings/
